

LPHS YEARBOOK

In this class, you and your classmates will be in charge of creating La Plata's 2021-2022 yearbook, Excalibur. In this class, you will learn interviewing skills, photography skills, and caption writing skills, along with design skills using our yearbook program, Jostens Layout Pro. You will be expected to take photos of athletics, goings-on in the building both during and after the school day, clubs, performances, etc. Though most of the expected work is done during our class period and/or the school day, there will be expectations for you to participate in activities outside school hours. You can take yearbook as a sophomore, junior, and/or senior. Though this class can be fun, there is also a lot of work that goes into creating a successful yearbook and our ultimate goal is to create the most memorable yearbook that we can for any given school year. This class requires an application and approval from Ms. Drake. If you have any other questions about this course, please email Ms. Drake at sdrake@ccboe.com
