

Pharmacy Technician

Opportunities for students to apply what they are learning to real-life health care situations are a part of this specialized course. The coursework will prepare students to take the National Pharmacy Technician Certification Examination (ExCPT), administered by the National Healthcareer Association (NHA).

What will you learn?

Through project-based learning, clinical experiences, as well as classroom and hands-on lab instruction, students will acquire the skills to enter work in the retail pharmacy, hospital, home health care, mail order or pharmaceutical wholesale industries.

What can you be certified in?

Pharmacy Technician (ExCPT), Basic Life Support, First Aid, and CPR.
